ABOUT ME

Innovative Industrial Designer with drive to bring designs from concepts into production. Strong creative and analytical skills. Team player with an eye for detail.

EXPERIENCE

GRAPHIC DESIGN AND MARKETING INTERN

Blacksburg Transit

June 2023 - August 2023

Continuing on from an independent study from spring semester 2023, I started this internship to redesign the bus stop signs, create graphics advertising the new multi-modal transportation facility, and redo the stickers on the sides of the buses. I saw the bus stop sign and sticker project from the beginning, to getting quotes, and to production.

CABINET SHOP ASSISTANT

Virginia Tech

June 2022 - August 2022

I operated and received training on panel saw, edge banding machine, boring machines, and grass drawer press to fabricate component pieces for student room furniture. I assembled the fabricated panels and component parts. I cleaned shop and moved items for storage as needed.

SALES ASSOCIATE

Williams Sonoma

June 2021 - August 2021

I learned about the design and creation of various kitchen supplies in order to assist customers with any questions. I worked at the cash register as well as main floor and the front door. I arranged new merchandise with signage and appealing displays to encourage customer sales.
