Fonts!

Welcome!

Hello! I'm MK Ganley, an industrial designer and artist with a lot of passion for design and inspired creation. I love fonts, modern trends in colors and form, and whatever little ideas may pop into my head. There's a lot of little details that brighten up the world, and I hope to keep finding those things.

If those details don't exist, I'm happy to make it happen!

Experience

PUZZLR Puzzle Designer

June 2023--Present

- Designed, created, manufactured and tested custom puzzles used within the rooms
- Create themed experiences with interactive and long-lasting components
- Utilized specialized tools and methods to create resilient puzzles
- Demonstrated exceptional client care, evidenced by reviews and commendations

Designer for CARR Properties Real Estate Data

September 2023--Present

- Created building models within Fusion 360 to visualize collected data
- Enhanced presentation aesthetics to easily convey complex statistical data
- Designed a unified language of color and form within CARR properties designs

Boeing -- Future of Work

August 2022- June 2023

- Created refined rendered models of aerospace fuses to specs for future development
- Implemented computer aided monitoring of real-time data to prevent errors and waste
- Developed models for form and function under the lens of a detail-heavy data source
- Applied Boeing design language to carry through the corporate lens within the scope of our work
